

Ref. T1/13.01

MSC/Circ.903  
15 March 1999

## **REPORTS ON ACTS OF PIRACY AND ARMED ROBBERY AGAINST SHIPS**

### **Annual report**

1 The Maritime Safety Committee, at its sixty-fifth session in May 1995, instructed the Secretariat to issue, as from 31 July 1995, monthly reports of all incidents of piracy and armed robbery against ships reported to the Organization and, in addition, on a quarterly basis, composite reports accompanied by an analysis, on a regional basis, of the situation and an indication whether the frequency of incidents is increasing or decreasing and advising on any new feature or pattern of significance.

2 At its sixty-sixth session in June 1996, the Committee instructed the Secretariat to prepare, after March of every year, an annual summary of all acts of piracy and armed robbery against ships, which had occurred during the previous year and had been reported to the Organization, based on their actual date and time of occurrence.

3 Pursuant to this request, the annex hereto provides information on reports of piracy and armed robbery against ships received by the Secretariat since 1984, when relevant statistics started being compiled and, in particular, those that occurred in the course of 1998 as well as a regional analysis thereof.

4 The total number of acts of piracy and armed robbery against ships which occurred in 1998, as reported to the Organization, was 210, a decrease of 42 (17%) over the figure for 1997.

5 From that information, it emerges that the areas most affected in 1998 (i.e. five incidents reported or more) were the Far East, in particular the South China Sea and the Malacca Strait, South America and the Caribbean, the Indian Ocean and West and East Africa. Over the period under review, the number of incidents reported to have occurred, decreased from 8 to 6 in the Malacca Strait, from 101 to 94 in the South China Sea, from 45 to 38 in South America and the Caribbean, from 41 to 25 in the Indian Ocean, from 11 to 2 in the Mediterranean and Black Seas and from 30 to 22 in West Africa but increased from 11 to 19 in East Africa over the figure for 1997. Most of the attacks worldwide were reported in territorial waters while the ships were at anchor or berthed. In many of the reports received, the crews were violently attacked by groups of one to five people carrying guns.

6 From the same information, it emerges that fifty-one crew members of the ships involved were killed and thirty-one wounded during the reported incidents. It has also been revealed that, on two occasions, pirates used false distress signals to deceive their victims.

7 The annexes to this document provide a breakdown of the information referred to above as follows:

- .1 annex 1 provides a list of all reported incidents that occurred in 1998 in chronological order of occurrence;
- .2 annex 2 provides a regional analysis of incidents reported to have occurred in 1998;
- .3 annex 3 provides a graphic presentation by location and month of occurrence of the 1998 reported incidents;
- .4 annex 4 provides maps showing the location of reported incidents which occurred during 1998; and
- .5 annex 5 provides a graphic presentation, on an annual basis, of reports received between 1984 and 1998 based on their time of occurrence.
